SuSChemE-SUSTENS2

Sustainable Chemical Engineering Systems

June 29–30, 2026 | Athens, Greece

The annual conference series of [SuSChemE](#) and [SUSTENS2](#) are joining forces to host a Special Conference Edition in Athens, Greece, on June 29–30, 2026.

This Special Conference is the flagship event of the [Sustainability Section of EFCE](#) (Chaired by Prof. Antonis Kokossis), an initiative driven by the vision of positioning chemical engineering at the forefront of the transition to sustainable development. Rooted in a systemic and holistic approach, the EFCE Sustainability Section promotes the rebuilding of industries through circular economy principles, innovative technologies, and solutions that balance human needs with planetary viability.

The conference is co-organized by:

- [Sustainability Section of EFCE](#)
- [Technical Chamber of Greece](#)
- [Hellenic Association of Chemical Engineers](#)

The organizing committee and the chairs – **prof. Antonis Kokossis**, **prof. Seyed Mansouri**, and **Dr. Kostas Pyrgakis** – invites engineers, researchers, academics, under-/post-graduate students and industrial practitioners of all levels to present their recent advancements and projects across a wide range of thematic fields, fostering inspiration and strengthening professional networks.

SuSChemE-SUSTENS2 covers 6 key topics:

1. Green & Sustainable Technologies
2. Biotechnology Engineering Systems
3. Power-to-X Systems
4. AI-Driven Engineering Solutions
5. Process Engineering & Industrial Applications
6. Safe & Sustainable by Design Processes and Materials

Authors are cordially invited to [submit their abstracts](#) and present (oral/poster) their work at **SuSChemE-SUSTENS2** conference, which is supported by distinguished scientists, researchers and academics involved in the [Scientific Committee and Speakers](#).

[Abstract submission is NOW OPEN!](#)

*Abstract submission deadline: **28 February 2026***

More information about **Publication Opportunities** and **Guidelines for authors** [HERE](#)

More information about **Key dates & Topics** [HERE](#)

The conference also offers a dedicated **platform for EU-funded projects** to:

- host **project workshops** to disseminate their results,
- support **project clustering activities**,
- benefit from **exhibition booths and customized sponsorship options**, and
- integrate their **Final Event** activities.

***Venue:** The conference will be held at Royal Olympic Hotel in the center of Athens (Greece) offering the amazing view of Acropolis.*
